

Thank you for your interest in appointment to the Medical Staff of Yakima Valley Memorial Hospital (YVMH).

At Memorial Hospital we support, encourage and expect unqualified adherence to the following principles:

- Use of the best scientific evidence to guide decision-making and care.
- Treatment of all patients, staff, medical colleagues and members of the public with respect, equanimity, fairness and dignity.
- Full participation in efforts to promote patient safety, including but not limited to: procedural time-outs, use of enhanced communication tools such as SBAR and STAR, leadership and support for 3-way repeat back of all verbal orders. Completion of the Safety Imperative Self-Assessment Questionnaire.
- Individual accountability for own behavior and interaction with others.
- Participation in ongoing professional performance evaluation of Medical and Clinical Knowledge, Patient Care, Interpersonal Skills and Communication, Practice-Based learning and Improvement, Professionalism, and System-Based Practice.

It is the responsibility of the applicant to provide unrestricted access, as permitted by state and federal law, to any and all information necessary to fully evaluate the applicant's qualifications. All information in the application will be verified through any and all necessary primary sources. All letters of reference will be evaluated and additional information may be requested, as deemed necessary through the credentials evaluation process, pursuant to the unrestricted disclosure requirements stated above. Peer references that prohibit disclosure of information to the applicant will be considered unsatisfactory and incomplete.

The following items will be requested by Medical Staff Services **upon completion of the application:**

1. Release of information allowing YVMH to obtain unrestricted access to complete information from all educational and training institutions applicant has attended, all hospital and outpatient facilities in which applicant has practiced, all applicable medical malpractice insurers who have provided coverage, all applicable state/provincial/etc. licensure and physician quality assurance boards, and all personal and professional references provided by Applicant.
2. Current, complete curriculum vitae.
3. Description of practice plans including anticipated utilization of YVMH facilities and types of hospital privileges requested. Case logs and pertinent redacted medical records may be required to document proficiency with regard to requested privileges.
4. Proof of satisfactory completion of, or current enrollment in, an AMA, AOA, ADA or ABPM-approved residency program, and fellowship if applicable, in the appropriate medical, dental or surgical specialty.
5. Proof of current Board Certification in appropriate specialty. For individuals in the process of obtaining Board Certification within the timeframe requirements adopted by their specific specialty board, documentation of completion of any partial requirements and proof of registration for additional portions may be required.
6. Proof of Federal DEA certification.
7. ECFMG documentation, if applicable.

8. Current Washington professional licensure or copy of application if pending.
9. Current National Practitioner Identifier (NPI) and Taxonomy Code or copy of application if pending.
10. Proof of Professional Liability Insurance or written guarantee of insurability from an acceptable malpractice insurance carrier in the amounts specified by YVMH Board.
11. Completed Washington State Patrol Criminal Background evaluation with no adverse information.
12. Completed World-wide Criminal Background evaluation with no adverse information.
13. Completed National Practitioner Data Bank report evaluation with no adverse information.
14. Fully satisfactory references from three peers in your specialty who have worked with you in the past 2 years. Letters of reference that include language prohibiting full disclosure to the applicant will be considered unsatisfactory.
15. Signed agreement to abide by the behavioral standards, bylaws, rules and regulations of the Medical Staff.

Processing of credentials will commence upon the receipt of the \$300 application fee (NOTE: The application fee may be paid by your practice, please confirm prior to sending a personal check). Checks should be made out to "**YVMH Medical Staff**". YVMH agrees to process credentials in a timely manner but can make no guarantees regarding the duration of time necessary to fully and satisfactorily evaluate an applicant's credentials.

An application will be considered incomplete until such time as all required items have been received and have been considered to fully and satisfactorily meet the outlined standards of YVMH Medical Staff membership. Any failure to provide complete information to the satisfaction of the Medical Staff of Memorial Hospital will render the application null and void and no further processing will occur. During the processing of the application to the Medical Staff, should any information contrary to the Memorial Hospital Medical Staff standards of practice and behavior be received, the application will be considered null and void and no further processing will occur.

Please be advised that no privileges may be granted until an application is considered fully and satisfactorily complete and the request for privileges has been approved through the credentialing process of the YVMH Medical Staff.

Please anticipate local residence plans to comply with YVMH patient care response time requirements within your specialty and when "on-call". We encourage applicants to arrange a timely evaluation of local housing to comply with the residence distance/call response time requirements, but would recommend not completing any contractual arrangements until the applicant has been offered privileges at YVMH.

If you believe you are able to meet the criteria as outlined and would like an application, please complete the following and return to Medical Staff Services by FAX or Mail.

Carl R. Olden, MD  
Chief Medical Information Officer  
Yakima Valley Memorial Hospital

Medical Staff Services (509) 249-5327; Fax (509) 575-8775

**Yakima Valley Memorial Hospital Medical Staff Application Request:**

FAX to: 509-575-8775 or email [josephinejohnston@yvmh.org](mailto:josephinejohnston@yvmh.org)

<b>NON-PATIENT CARE CATEGORIES</b>	
<b>Affiliative</b>	<b>Educational</b>
<ol style="list-style-type: none"> <li>1) Practitioners who maintain a clinical practice in the hospital service area and wish to follow their patients when they are admitted to the hospital.</li> <li>2) May order noninvasive outpatient diagnostic tests and services; visit patients in the hospital; review medical records; and attend medical staff, committee or department/clinical service meetings, continuing medical education functions and social events.</li> <li>3) Not eligible to vote or hold office.</li> <li>4) Need not maintain professional liability but must be licensed.</li> <li>5) Shall be assessed annual dues as set.</li> </ol>	<ol style="list-style-type: none"> <li>1) Practitioners who refer patients to members of the Staff, but only desire to participate in hospital and Staff educational programs.</li> <li>2) May use library facility at the hospital.</li> <li>3) Shall be assessed annual dues as set.</li> </ol>

**Board Certification Requirements by Department  
Yakima Valley Memorial Hospital**

<b>Department</b>	<b>Board Certification Requirements</b>
<b>Anesthesia</b>	<p>Board certification or current enrollment in ABA certification process. Members requesting initial privileges will provide documentation of training, experience, and recommendations from the appropriate training director, which will include information regarding the applicant's judgment and competency to perform the procedures in an independent, non-supervised role. This documentation shall include verification of 100 patient contacts in the immediate past year. Board Certification must be obtained within four years of completion of residency training. <b>Maintenance of Board Certification is required</b> for all physicians except for those grandfathered by the ABA.[Added 4/12]</p>
<b>Cardiac, Pulmonary &amp; Critical Care</b>	<p><b>Cardiology:</b> The applicant must demonstrate successful completion of an American College of Graduate Medical Education or American Osteopathic Association accredited residency program in internal medicine followed by completion of an accredited subspecialty training program in Cardiovascular Diseases.</p> <p>The candidate must be American Board of Internal Medicine certified in the subspecialty of Cardiovascular Diseases and board certification must be achieved within 5 years of the completion of the Cardiovascular Diseases fellowship.</p> <p><b>Pulmonary:</b> The applicant must demonstrate successful completion of an American College of Graduate Medical Education (ACGME) or American Osteopathic Association (AOA) accredited residency program in internal medicine followed by completion of an accredited two year subspecialty training program in pulmonary disease.</p> <p>The candidate must be ABIM Board Certified or eligible in the subspecialty of Pulmonary Disease. If an "Active Candidate", board certification must be achieved within 5 years of the completion of the Pulmonary Disease fellowship. <b>To maintain privileges, Board Certification must remain current.</b></p> <p>The successful applicant must demonstrate that he or she provided pulmonary disease inpatient or consultative services for at least 50 patients during the past 12 months</p>
<b>Emergency Medicine</b>	<p>Current board certification or an Active Candidate Status with active participation in the examination process leading to certification in Emergency Medicine by the American Board of Emergency Medicine or the American Osteopathic Board of Emergency Medicine.</p> <p>This board certification must be obtained within five years of the granting of privileges within the department. Any physician who does not complete this board certification within the five year interval shall be deemed to voluntarily relinquish those privileges that require board certification. <b>Maintenance of current board certification required.</b></p> <p><b>Grandfathering:</b> All physicians who are already members of the Emergency Department on January 1 2004 meet criteria for core privileges.</p>
<b>Family Medicine</b>	<p>As of July 1, 2003: A physician, who is qualified for medical staff membership, may qualify for Family Medicine Department privileges if he/she successfully passes the American Board of Family Medicine or the American College of Osteopathic Family Physicians boards and is currently certified. Candidates who join the Staff and have not passed their Boards must take and pass them within four (4) years of starting practice to remain members of the Department.</p> <p><b>Board Certification is required for obstetrical privileges.</b></p> <p>Available to Board Certified or Active Board candidate physicians with training comparable to that required by ABFM (three (3) months structured OB/Gyn educational program, supervision of thirty (30) vaginal deliveries, and mastery of the skills detailed in the ACOG/AAFM Recommended Core Curriculum).</p> <p>Certifications: All practitioners with obstetrical privileges shall maintain current Neonatal Resuscitation Program certification and a current Advanced Life Support in Obstetric (ALSO) certification [a twelve-month grace period will be extended to obtain ALSO certification]. A copy of current certifications will be on file with Medical Staff Services.</p>
<b>Head &amp; Neck</b>	<b>Dentistry:</b> General Dentists will be excluded from this requirement.

	<p><b>Ophthalmology:</b> Initial board certification or active participation in the examination process leading to certification in ophthalmology by the American Board of Ophthalmology or the American Osteopathic Board of Ophthalmology.</p> <p>New Members of the Department need to be eligible to take the appropriate certification exam and complete their board certification within five (5) years of completion of their residency training. Approved Boards will be the appropriate American Board, Osteopathic Boards, or Canadian Boards.</p> <p><b>Oral Surgery:</b> New Members of the Head &amp; Neck Department need to be eligible to take the appropriate certification exam and complete their board certification within five (5) years of completion of their residency training. Approved Boards will be the appropriate American Board, Osteopathic Boards, or Canadian Boards.</p> <p><b><i>Any physician who does not complete this board certification within the five year interval shall be deemed to voluntarily relinquish those privileges that require board certification.</i></b></p> <p><b>Otolaryngology:</b> Successful completion of a graduate resident training program on otolaryngology, approved by the accrediting board of graduate medical education or its equivalence. Board certification in otolaryngology by the American Board of Otolaryngology – Head &amp; Neck Surgery, Osteopathic Board of Otolaryngology, or an equivalent board is required, provided, however: If an applicant is not board certified, then that board certification must be met in the time line drawn below.</p> <ul style="list-style-type: none"> <li>A. At the time of application, the applicant has completed formal training in his/her specialty and has not exceeded any time limits within which he/she shall have applied for the completed board application and the examination requirements;</li> <li>B. At the time of application, not more than four years has passed since the applicant first completed formal training and has completed all other requirements established by the Board to be an “Active Candidate”.</li> </ul> <p><b><i>If the applicant is not Board Certified by four years after application and fails to meet that approval, he/she will no longer be eligible for privileges in otolaryngology.</i></b> If, however, a practitioner who has been dually trained in otolaryngology and his/her privileges were terminated for failure to attain Board Certification, he/she may reapply for otolaryngology privileges at the time he/she becomes Board Certified.</p>
<p><b>Internal Medicine</b></p>	<p><b>Endocrinology:</b> Initial board certification or active participation in the examination process leading to certification in Endocrinology by the American Board of Internal Medicine – Endocrinology or the American Osteopathic Board of Internal Medicine - Endocrinology. <b>OR</b></p> <p>If not board certified at the time of initial application, board certification must be obtained within five (5) years of being granted privileges within the Department. <b><i>Any Physician who does not complete his/her Board Certification within the five (5) year interval required shall be deemed to have voluntarily relinquished those privileges that require Board Certification.</i></b> This does not preclude an individual from making application to another Department where he/she meets qualification requirements.</p> <p><b>Gastroenterology:</b> Initial board certification or active participation in the examination process leading to certification in Gastroenterology by the American Board of Internal Medicine or the American Osteopathic Board of Internal Medicine.</p> <p>If not board certified at the time of initial application, board certification must be obtained within five (5) years of being granted privileges within the Department. <b><i>Any Physician who does not complete his/her Board Certification within the five (5) year interval required shall be deemed to have voluntarily relinquished those privileges that require Board Certification.</i></b></p> <p><b>Hematology/Oncology:</b> Board Certified in Internal Medicine and/or one of its sub-specialties; or is an active candidate for certification. Board certification must be obtained within five (5) years of being</p>

granted privileges within the Department. Any Physician who does not complete his/her Board Certification within the five (5) year interval required, shall be deemed to have voluntarily relinquished those privileges that require Board Certification. This does not preclude an individual from making application to another Department where he/she meets qualification requirements. **Re-certification shall not be a requirement for privileges.**

**Infectious Diseases:** Initial board certification or active participation in the examination process leading to certification in Infectious Diseases by the American Board or American Osteopathic Board of Internal Medicine

Applicants not board certified in Infectious Diseases at the time of initial appointment:

a. Physician must be Board Certified in Internal Medicine at the time of application and be qualified to take the Boards in Infectious Disease.

b. Board certification in Infectious Disease must be obtained within three (3) years of being granted privileges. Any Physician who does not complete this Board Certification within the three (3) year interval required, shall be deemed to have voluntarily relinquished those privileges that require Board Certification. This does not preclude an individual from making application to another Department where he/she meets qualification requirements. **Re-certification shall be a requirement for privileges if required by the Board.**

**Interventional Pain Care:** Board Certified /Active Candidate Status in Anesthesia, Physiatry, Neurology or Psychiatry. Completed an ACGME accredited pain medicine fellowship and board certified or Active Candidate Status and is participating in the examination process leading to certification in pain medicine.

**Nephrology:** Successful completion of an ACGME or AOA accredited three year residency in Internal Medicine and successful completion of a two year accredited fellowship in nephrology.

Board certification in the specialty of Internal Medicine or sub-specialty of nephrology within five years of residency or fellowship and **re-certification if required by the specialty board.**

Demonstration of the provision of in-patient or consultative services of at least 100 nephrology patients during a consecutive two-year period.

**Neurology:** Initial board certification or active participation in the examination process leading to certification in neurology by the American Board or American Osteopathic Board of Neurology & Psychiatry.

If not board certified at the time of initial application, board certification must be obtained within five (5) years of being granted privileges within the Department. Any Physician who does not complete his/her Board Certification within the five (5) year interval required **shall be deemed to have voluntarily relinquished those privileges that require Board Certification.** This does not preclude an individual from making application to another Department where he/she meets qualification requirements.

The successful applicant must be able to demonstrate that during the past 12 months he or she has been actively involved in the clinical practice of neurology and has provided inpatient or outpatient service to a reasonable number of patients, which can be documented.

**Nuclear Medicine:** Board certification by the American Board of Nuclear Medicine or the American Board of Radiology/Nuclear Medicine.

**Physical Med/Rehab:** Initial board certification or active participation in the examination process leading to certification by the American Board of Physical Medicine & Rehabilitation or the American Osteopathic Board of Physical Medicine & Rehabilitation.

If not board certified at the time of initial application, board certification must be obtained within five (5) years of being granted privileges within the Department. **Any Physician who does not complete his/her Board Certification within the five (5) year interval required shall be deemed to have voluntarily relinquished those privileges that require Board Certification.** This does not preclude an individual from making application to another Department where he/she meets qualification requirements.

	<p><b>Radiation Oncology:</b> Complete Radiology residency recognized by the American Board of Radiology as eligible for the ABR exams in Radiation Oncology.</p> <p>Physicians who have been granted Radiation Oncology privileges but are not Board Certified MUST ACQUIRE Board Cert. within two years of their initial granting of privileges but not more than 4 years after completion of training. <b>Re-certification shall not be a requirement for privileges.</b></p> <p><b>Rheumatology:</b> Initial board certification or active participation in the examination process leading to certification in Rheumatology by the American Board of Internal Medicine—Rheumatology or the American Osteopathic Board of Internal Medicine.</p> <p>If not board certified at the time of initial application, board certification must be obtained within five (5) years of being granted privileges within the Department. <b>Any Physician who does not complete his/her Board Certification within the five (5) year interval required, shall be deemed to have voluntarily relinquished those privileges that require Board Certification.</b> This does not preclude an individual from making application to another Department where he/she meets qualification requirements.</p> <p><b>Sleep Medicine:</b> The applicant must demonstrate successful completion of an American College of Graduate Medical Education or American Osteopathic Association accredited residency program followed by completion of current certification or active participation in the examination process leading to certification in pulmonology, psychiatry, pediatrics, internal medicine, neurology or family practice by the American Board of Medical Specialties or the American Osteopathic Board of Medical Specialties, plus successful completion of an additional one year training in clinical sleep medicine or certification by the American Board of Sleep Medicine or an American Academy of Sleep Medicine-accredited fellowship training program; and the candidate <b>must maintain current Board Certification in Sleep Medicine.</b></p> <p><b>Internal Medicine and All Other Specialties:</b> Current board certification or active participation in the examination process leading to certification in internal medicine by the American Board of Internal Medicine or the American Osteopathic Board of Internal Medicine.</p> <p>This board certification must be obtained within five years of the granting of privileges within the department. <b>Any physician who does not complete this board certification within the five-year interval shall be deemed to voluntarily relinquish those privileges that require board certification.</b></p>
OB/Gyn	<p>Successful completion of an ACGME- or AOA-accredited residency in obstetrics and gynecology.</p> <p>Current board certification or active participation in the examination process leading to certification in Obstetrics and Gynecology by the American Board of Obstetrics and Gynecology or the American Osteopathic Board of OB/Gyn. The department will follow the timelines as outlined by the American Board of OB/Gyn or the American Osteopathic Board of OB/Gyn.</p> <p><b>Board certification must be maintained in accordance with the practitioner's governing board (MD/DO) to maintain obstetrical privileges in the department.</b></p> <p>All practitioners with obstetrical privileges shall maintain current Neonatal Resuscitation Program (NRP) certification and a current Advanced Life Support in Obstetric (ALSO) certification [a twelve-month grace period will be extended to obtain certification in ALSO]. A copy of current certifications will be on file with Medical Staff Services.</p>
Orthopedics	<p><b>Orthopedics:</b> Current board certification or active participation in the examination process leading to certification in Orthopedic Surgery by the American Board of Orthopedics or the American Osteopathic Board of Orthopedics. <b>Board Certification will be required for maintenance of privileges.</b></p> <p><b>Podiatry:</b> Board Certification for these privileges must be obtained within the time frames outlined by the ABPS.</p> <p>Completion of one of the following pathways:</p> <ul style="list-style-type: none"> <li>- Successful completion of a four-year program at an accredited school of podiatric medicine with a degree as a doctor of podiatric medicine.</li> </ul>

	<ul style="list-style-type: none"> <li>- Minimum one year Podiatric Surgical Residency (PSR-12); and PM&amp;S 24 or greater.</li> <li>- <b>For Rearfoot:</b> Minimum two year Podiatric Surgical Residency (PSR 24) or PM&amp;S 36; and Board certification in rearfoot and ankle surgery by ABPS or qualified as outlined by the ABPS.</li> </ul>
<b>Pathology</b>	Individuals applying for Pathology privileges shall be Board Certified in Anatomical Pathology and Clinical Pathology within one (1) year of completing their Residency or specialty training. Acceptable boards will be the American M.D. or D.O. Boards.
<b>Pediatrics</b>	<p><b>Pediatric:</b> A physician, who is qualified for medical staff membership, may qualify for Pediatric Department privileges if he/she successfully passes the American Board of Pediatrics or the American Osteopathic Board of Pediatrics <b>and is currently certified.</b> The department will follow the time lines as outlined by the American Board of Pediatrics or the American Osteopathic Board of Pediatrics.</p> <p><b>Neonatology:</b> Board certification is required in the specialty within 5 years of completing residency. <b>Recertification is required if established as a requirement by the specialty board.</b></p>
<b>Psychiatry</b>	<p>The applicant must demonstrate successful completion of an American College of Graduate Medical Education or American Osteopathic Association accredited residency program in psychiatry.</p> <p>Initial board certification or active participation in the examination process leading to certification in Psychiatry by the American Board of Psychiatry and Neurology.</p> <p>This board certification must be obtained within five years of the granting of privileges within the department. Any physician who does not complete this board certification within the five-year interval shall be deemed to voluntarily relinquish those privileges that require board certification.</p>
<b>Radiology</b>	<p>Completion of a Radiology Residency recognized by the American Board of Radiology as eligible experience for the ABR exams in diagnostic radiology and general radiology.</p> <p>Physicians, who have been granted Radiology privileges but are not Board Certified, must acquire Board Certification within two years of completing their Radiology residency. Any physician who does not complete this board certification within the two-year interval shall be deemed to voluntarily relinquish those privileges that require board certification. <b>Maintenance of board certification in order to continue hospital privileges in the Radiology Department.</b></p>
<b>Surgery</b>	<p><b>Privileges in General Surgery, Neurosurgery, Plastic Surgery, Thoracic/CV Surgery, Urology:</b> To those Staff members who are certified by an American surgical specialty board approved by the American Board of Medical Specialties or foreign equivalent within the time limits as outlined by the specialty board.</p> <p><b>Maintenance of current board certification.</b></p> <p><b>Cardiothoracic:</b> Minimal formal training: The applicant must be able to demonstrate successful completion of an approved residency/fellowship training program in thoracic surgery (as defined by the American Board of Thoracic Surgery)</p> <p>The applicant must obtain American Board of Thoracic Surgery certification and/or foreign equivalent within five years of completion of residency training in thoracic surgery.</p>

# Yakima Valley Memorial Hospital Medical Staff

## MEDICAL STAFF BYLAW OVERVIEW (see full Bylaws for complete wording)

### Qualification:

- 1) Doctors of Medicine, Osteopathy, Dentistry and Podiatry licensed to practice in the State of Washington.
- 2) Documentation of background, experience, training and judgment, individual character, ability to work with others and physical and mental health status.

### Application Agreement:

- 1) Agrees to appear for interviews if required.
- 2) Authorizes Hospital representatives to consult with past associates if necessary.
- 3) Consents to Hospital representatives inspecting all records and documents that may be material to an evaluation of qualifications and competence.
- 4) Releases from liability all Hospital representatives for #2.
- 5) Authorizes and consents to YVMH providing other hospitals, medical associations, licensing boards, etc. with information regarding performance and quality and efficiency of patient care.
- 6) Agrees to the burden of producing accurate and complete information for a proper evaluation of his/her application and privilege request.
- 7) Agrees to provide supportive documentation of additional training/experience as requested for determination of clinical privileges.
- 8) Agrees to exhaust administrative remedies afforded these bylaws before resorting to formal legal action in case of an adverse decision.
- 9) May be granted membership and/or clinical privileges or specified services in one or more departments. The exercise of clinical privileges or the performance of specified services within any department shall be subject to the rules and regulations of that Department and the authority of the Department Chairperson.

### Membership Agreement:

- 1) Abides by Principles of Medical Ethics of the AMA or Code of Ethics of the ADA, whichever is applicable.
- 2) Pledges not to receive from or pay to another physician or dentist, or to any other person, any part of a fee received for professional services.
- 3) To refrain from providing "ghost" surgical or medical services.
- 4) Provide continuous patient care.
- 5) To delegate in his/her absence the responsibility for diagnosis or care only to a member who is qualified to undertake such responsibility or who is adequately supervised.
- 6) To seek consultation whenever necessary.
- 7) To maintain professional liability insurance coverage as specified by the Boards and to provide written evidence of such coverage to the CEO of each hospital.
- 8) To participate in back-up staffing for the Hospital, including emergency service and special care units.
- 9) Permit evaluation of his/her performance by peer review (to include proctoring).
- 10) Participate in the process of evaluation.
- 11) Participate in continuing medical education.

### Meeting Attendance Requirement:

Physicians shall meet the meeting attendance requirements as established by their Department and Committee Chairperson with approval of the MEC.

Dues Agrees to pay annual membership dues and assessments as determined by the MEC.

## On-Call Obligations:

- b. **On-Call Obligations:** Each Active Staff Member shall, as a condition of appointment and reappointment, agree to participate in either Medical back-up on-call or Specialty call for the care of unassigned or assigned patients (see definition in paragraph 6.c.) for whom coverage is not immediately available admitted to the Emergency Departments or as in-patients. Members of the Medical Staff older than 62 years of age will not be required to take call but do have the option of remaining on the call roster. In the event of unusual situations when the on-call physician in that specialty is occupied with a concurrent emergency, then the requesting physician, after talking to the on-call physician, may need to call the Chairperson of the Department or his/her designee or the on-call physician to arrange for coverage and, if the Department Chair is unavailable, then the on-call physician may contact the President of the Medical Staff or designee. All members of the Medical Staff shall be expected to provide urgent and emergent care in the Hospital as required upon direction of the following individuals or their designee: the Chairperson of the Department concerned. If the Chairperson is not available, then this duty falls to the President of the Medical Staff or his/her designee.

### **On Call Responsibilities include:**

- (1) On-call physicians shall be available to respond in a timely manner. It is generally expected that physicians will respond within 30 minutes of initiation of the paging protocol, assuming the paging system in the community is operational. If the paging system is not operational, then an attempt to contact the on-call physician should be made through the office phone, hospital, cellular phone and/or home phone.
- (2) A standardized nomenclature and appropriate response time for each type of call (e.g. stat, urgent, routine, consult, FYI) shall be determined by the Medical Executive Committee [*standardized nomenclature approved 10/17/00*] and disseminated to the Members of the Medical Staff and to all Hospital ward and Emergency Department personnel.
- Stat – Patient’s life or limb is in jeopardy and patient needs to be seen immediately
  - Urgent – Patient needs to be seen within the hour for a condition that may deteriorate to threaten life or limb
  - Routine – Patient needs to be seen based on communication between the ER physician and consultant
- (3) On-call response shall be determined by the physician making the request, not the on-call physician’s evaluation of the need to respond. If the on-call physician disagrees with the requesting physician on the need to respond, the on-call physician shall still respond.
- If, after evaluation of the patient, the on-call physician still believes that the call for physical presence was unnecessary, he/she may write a letter of concern to his/her department chairperson and to the department chairperson of the requesting physician. An answer from the department chairperson shall be transmitted back to the on-call physician within two months. If the answer does not satisfy the complainant, he/she may next contact the chairperson of the two involved departments and the Vice-President of the Medical Staff to discuss the issue. If there is still no resolution, then it will be forwarded to the MEC.
- (4) It is recognized that concurrent emergency response to another patient (medical or surgical) may delay or prohibit the physical response of the on-call physician. The on-call physician shall help arrange by verbal response an alternative plan of care, diversion or transfer of the patient.
- (5) Neither financial ability of the patient nor the means of payment shall be considered by the on-call physician in the decision to respond, treat, or transfer the patient.
- (6) Each physician will be required to take four days of call each month, unless the number of physicians in the specialty is such that full Emergency Department coverage can be achieved with less. When this policy results in uncovered time segments in the on-call schedule, all patients presenting during the uncovered segments and requiring the services of that specialty will be transferred or diverted as need to another appropriate facility consistent with the hospital’s patient transfer policy.
- (7) In the event a staff physician requests consultation of the on-call physician, the requesting physician should directly communicate with the consultant to transfer pertinent clinical information.

c. **Definitions:**

**Assigned Patients** are individuals with a private physician or healthcare coverage, which has empanelled, contracted, or participating appropriate Active Staff members.

**Unassigned Patients** are those individuals that do not have a private physician or healthcare plan or have healthcare coverage that does not have empanelled, contracted, or participating appropriate Active Staff members.

- d. Medical Back-up On-Call: This call group shall consist of Active Staff members of the Family Practice and Internal Medicine Departments available to serve as admitting physicians for unassigned patients. Certain members of the Family Practice and Internal Medicine Departments may be excused from the Medical Back-up call group in order to serve in Specialty call groups by agreement of the Chairpersons of the Family Medicine and Internal Medicine Departments with concurrence of the M.E.C.
- e. Specialty Call: Active Staff members of the following specialty/sub-specialty departments will participate in appropriate on-call care for unassigned patients in the ED and in-patient units. On-call lists for the following departments will be maintained: Anesthesia, Cardiology, Family Medicine, Gastroenterology, Hematology/Oncology, Hospitalists, Nephrology, Neurology, Neurosurgery, Ophthalmology, Orthopedics, Otolaryngology, Ob/Gyn, Pediatrics, Pediatric Hospitalists, Neonatology, Physical Medicine/Rehabilitation, Plastic Surgery, Psychiatry, Pulmonary Medicine, Radiation Oncology Radiology, Surgery [General], Urology and vascular surgery. Other specialty call groups may be added or deleted by the M.E.C. based on Medical Staff membership.
- f. On-Call Residence: Each member of the Active Staff must reside or maintain an on-call residence which allows them to physically be present within 30 minutes of an emergency request.
- g. Conformance with State and Federal Regulations: It is the express intent of the Medical Staff to be in compliance with applicable state and federal laws, rules, and regulations, including but not limited to, emergency care defined by the COBRA EMTALA provisions, and designated trauma center requirements. Furthermore, Medical Staff privileges shall be contingent on compliance with applicable state and federal regulations.

In the event of a conflict between state and federal laws, rules and regulations regarding emergency treatment and the call coverage requirement, the Hospital and the Medical Staff member shall work together to come up with a mutually acceptable on call schedule for the Medical Staff member that is in compliance with state and federal laws.

A Member accepts the commitment to:

- a. Permit evaluation of his/her performance by peer review;
- b. Participate in the process of evaluation;
- c. Participate in the continuing education process identified by the evaluation.
- d. Provide evidence of renewed licensure, DEA registration (if applicable), and professional liability insurance coverage prior to the expiration date of the same. In addition, the applicant agrees to immediately notify the CEO at any time there is a change made or proposed to the above.
- e. Provide change of address and phone numbers as well as call group members as changes occur. [added 3/2005]
- f. Agrees to abide by the terms of the Bylaws and related manuals and other policies of the Staff and those of the Hospital if granted appointment and/or clinical privileges and to abide by the terms thereof in all matters relating to consideration of the application without regard to whether or not appointment and/or privileges are granted.
